

DESCRIPTION

The Instacoat Seal Coating Preservation System was designed to address the need to protect and extend the life of asphalt pavements. The system uses a highly refined rubberized asphalt emulsion. The system consists of a Roller or trowel grade to address any existing cracks or transitions and three grades of a sealcoat

SYSTEM COMPONENTS

- Waterproofing Pavement Crack Sealer - Pourable Grade for uses on horizontal surfaces.
- Waterproofing Pavement Crack Sealer - Trowel Grade for use on sloped and vertical surfaces.
- Economy Sealcoat - Non-rubberized modified asphalt emulsion seal coat.
- Rubberized Sealcoat - Rubberized modified asphalt emulsion seal coat.
- Premium Sealcoat - Highly rubberized modified asphalt emulsion seal coat.

All products in the Seal Coating Preservation System from Instacoat Premium Products are Eco Friendly and contain no fillers found in most seal coats available in today's market.

FEATURES & BENEFITS

- ENVIRONMENTALLY FRIENDLY - Water based material that contains no VOC's, requires no so no special ventilation or kettles.
- ADHESION - Has superior adhesion.
- CHEMICAL RESISTANCE - Has great chemical resistance to most chemicals.
- ECONOMICAL - Due to the and ease of application and minimal preparation.
- Elongation & Recovery - The elongation and recovery allows the material to withstand thermal expansion and contraction.

PREPARATION

All surfaces should be free from any loose material, oils, greases or other foreign material. These should be removed prior to application by means recommended by the manufacturer.

All cracks, penetrations, existing seams, and transitions, should be addressed using the

Waterproofing Pavement Crack Sealer according to the methods recommended by the manufacturer.

APPLICATION

The Sealcoat Grades can be either spray applied with specialized equipment or by hand using a squeegee at 75-125 Square feet per gallon.

The Instacoat Sealcoat Grades do not require a high build on the surface. The Sealcoats were designed to protect and seal the substrate from the inside out.

MAINTENANCE

No maintenance is required although a maintenance coating may be applied after the seal coat has reached its intended life cycle. Those subsequent coats will be a surface coat thus requiring less material.

AVAILABILITY

Available in 55 gallon (208.2 liter) drums and 275 gallon (1041 liter) totes.

Technical Services

Technical Services, specifications, and other information is available by contacting Instacoat Premium Products.

WARRANTY

Warranty information is available by contacting Instacoat Premium Products.

Life Expectancy

Economy Sealcoat - 1 - 3 years.
Rubberized Sealcoat - 3 - 7 years.
Premium Sealcoat - 5 - 10 years.

LIMITATIONS

Must be stored and applied at temperatures of 40° F / 4° C or above.

The Premium Sealcoat is not intended to repair broken, loose, or contaminated asphalt.

Please read all information in the general guidelines, product data sheets, guide specifications and material safety data sheets (MSDS) before applying material. Published technical data and instructions are subject to change without notice. Contact your local IPP representative or visit our website for current technical data and instructions.

LIMITED WARRANTY

IPP warrants its products to be free of manufacturing defects and that they will meet IPP current published physical properties. IPP warrants that its products, when properly installed by a state licensed waterproofing contractor according to IPP guide specifications and product data sheets over a sound, properly prepared substrate, will not allow water migration for a period of 12 months. Seller's sole responsibility shall be to replace that portion of the product which proves to be defective. There are no other warranties by IPP of any nature whatsoever expressed or implied, including any warranty of merchantability or fitness for a particular purpose in connection with this product. IPP shall not be liable for damages of any sort, including remote or consequential damages resulting from any claimed breach of any warranty whether expressed or implied. IPP shall not be responsible for use of this product in a manner to infringe on any patent held by others. In addition, no warranty or guarantee is being issued with respect to appearance, color, fading, chalking, staining, shrinkage, peeling, normal wear and tear or improper application by the applicator. Damage caused by abuse, neglect and lack of proper maintenance, acts of nature and/or physical movement of the substrate or structural defects are also excluded from the limited warranty. IPP reserves the right to conduct performance tests on any material claimed to be defective prior to any repairs by owner, general contractor, or applicator.

DISCLAIMER

All guidelines, recommendations, statements, and technical data contained herein are based on information and tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as a warranty, either expressed or implied. It is the users responsibility to satisfy himself, by his own information and test, to determine suitability of the product for his own intended use, application and job situation and user assumes all risk and liability resulting from his use of the product. We do not suggest or guarantee that any hazard listed herein are the only ones which may exist. Neither seller nor manufacturer shall be liable to the buyer or any third person for any injury, loss or damage directly or indirectly resulting from use of, or inability to use, the product. Recommendations or statements, whether in writing or oral, other than those contained herein shall not be binding upon the manufacturer, unless in writing and signed by a corporate officer of the manufacturer. Technical and application information is provided for the purpose of establishing a general profile of the material and proper application procedures. Test performance results were obtained in a controlled environment and IPP makes no claim that these tests or any other tests, accurately represent all environments.
