ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit [www.energystar.gov](http://www.energystar.gov).

Dear ENERGY STAR® Roof Products Stakeholders:

The U.S. Environmental Protection Agency (EPA) would like to remind stakeholders that **as of June 1, 2021, EPA-recognized certification bodies (CBs) are required to cease certification of new roof products to the Version 3.0 specification.**

Models that are certified by June 1, 2021, will remain ENERGY STAR certified until June 1, 2022, at which time the ENERGY STAR roof products specification will sunset. **Brand owners must stop using the ENERGY STAR name and ENERGY STAR mark in association with all roof products on and after June 1, 2022.**

Additionally, no new promotional materials for roof products (printed and electronic) that use the ENERGY STAR mark may be produced after June 1, 2021. Brand owners are permitted to use up existing printed material, including packaging, to minimize waste. To minimize the cost of labeling changes and be in compliance by June 1, 2022, brand owners of roof products are encouraged to remove ENERGY STAR references on Web sites or in other collateral materials as these materials are reprinted or changed.

For further details, please reference EPA's [ENERGY STAR Roof Products Sunset Decision Memo](#), or contact EPA at [roofs@energystar.gov](mailto:roofs@energystar.gov) with any questions regarding the specification sunset.
